2017 International Conference on Innovation, Communication and Engineering

November 5 - 11, 2017, Kunming, Yunnan Province, P.R. China

Organized by:

Fujian University of Technology, P.R. China

Taiwanese Institute of Knowledge Innovation (TIKI)

IEEE Tainan Section Sensors Council (IEEE TSSC)

2017 International Conference on Innovation, Communication and Engineering (ICICE 2017) will be held in Kunming, Yunnan Province, P. R. China on November 5–11, 2017, and will provide a unified communication platform for researchers in a wide area of topics from **advanced material science & engineering, information technology, innovation design, communication science & engineering, industrial design, creative design, applied mathematics, computer science, design theory, management science, cultural & creative research, electrical & electronic engineering, mechanical & automation engineering, green technology & architecture engineering** and other related fields. Professionals from industry, academia and government are encouraged to discourse on research and development, professional practice, business and management in the information, innovation, communication and engineering fields are welcome to participate in the ICICE 2017. This conference enables interdisciplinary collaboration between science and engineering technologists in the academic and industrial fields as well as networking internationally. During the conference, there will be substantial time for presentation and discussion. Attendees will find various activities useful in bringing together a diverse group of
