Conference Proceedings...

Computers & Education

Computing and communication technology continue to make an ever-increasing impact on all aspects of cognition, education and training, from primary to tertiary and in the growing open and distance learning environment. The journal is an established technically-based, interdisciplinary forum for communication in the use of all forms of computing in this socially and technologically significant area of application and will continue to publish definitive contributions to serve as a reference standard against which the current state-of-the-art can be assessed.

Visit the journal homepage for more information.

Those presenting at the conference will be eligible to submit their work to a special issue based on the conference theme to be published in *Computers & Education* in 2012. As the deadline for submission is 30th April 2011, we strongly encourage presenters to have a full paper ready for review at the time of the conference. Submissions will undergo a rigorous peer-review process overseen by the Guest Editor of the special issue, and an Editor of the journal.

Impact Factor **2.059** | 9th in Education, Educational Research
Journal Citations Reports® published by Thomson Reuters 2010

The CAL Conference 2011 is organised by Elsevier Ltd, publishers of the international journal *Computers & Education* .
