eISSN: 15413810 | ISSN: 00472395 | Current volume: 46 | Current issue: 1 Frequency: Quarterly

The *Journal of Educational Technology Systems* deals with systems in which technology and education interface and is designed to inform educators who are interested in making optimum use of technology.

More importantly, the Journal focuses on techniques and curriculum that utilize technology in all types of educational systems. Description of actual classroom practice and experimentation with the educational use of technology is an equally important aspect of the Journal.
